8 FEDERAL INCOME TAX WITHHOLDING (form W-4R)

Generally, retirement distributions are subject to federal income tax. The law requires 10% Federal Tax withholding unless you elect otherwise. Your federal tax withholding rate is determined by the type of payment you will receive. For nonperiodic payments, the default withholding rate is 10%. You can choose to have a different rate by entering a rate between 0% and 100%. Generally, you can't choose less than 10% for payments to be delivered outside the United States and its territories. See the Marginal Rate Tables (below) for more information.

Complete this line if you would like a rate of withholding that is different from the default withholding rate. See the instructions and the Marginal Rate Tables (below) for additional information. Enter the rate as a whole number (no decimals). Withhold Federal Income Tax of _____ %

Caution: Even if you elect not to have Federal income tax withheld, you are liable for payment of Federal income tax on the taxable portion of your distribution. You also may be subject to tax penalties under the estimated tax payment rules if your payments of estimated tax and withholding, if any, are not adequate.

Note: Unless a previous federal income tax withholding election is in place, or you indicate a different withholding amount above, we will withhold federal income tax at a default rate of 10%. Your withholding election is valid until you change it.

Please see Section #8 for options for state income tax withholding.
