### **Distributions of Ordinary Dividends**

As a result of the Jobs and Growth Tax Relief Reconciliation Act of 2003 a portion of the total ordinary dividends (box 1a on Form 1099-DIV) paid by your fund during 2024 may be designated as qualified dividends (box 1b on Form 1099-DIV). Qualified dividends are dividends received by your fund (and paid to shareholders) from domestic corporations or qualified foreign corporations that the fund has also met the required holding period (the fund must hold the security for greater than 60 days during the 121 day period beginning 60 days before the ex-dividend date). The qualified dividends are subject to a maximum tax rate of 15% for most taxpayers (For 2024 you will not need to pay any taxes on qualified dividends as long as you have \$41,675 or less of ordinary income. If you have between \$41,676 and \$459,750 of ordinary income, then you will pay a tax rate of 15% on qualified dividends. The rate for \$459,751 or more is 20 %.). In order for the individual to report the amount of qualified dividends in box 1b as qualified dividend income the shareholder must also satisfy the holding period requirement mentioned above with respect to his/her mutual fund shares. If the holding period requirement is not satisfied, the qualified dividends will be taxed as ordinary dividend income.

## Foreign Taxes

You are allowed to claim a tax credit or an itemized deduction on your federal income tax return for your share of foreign taxes paid by a mutual fund during 2024. In most cases, you will receive more benefit by claiming a tax credit.

The amount reported in Box 7 of Form 1099-DIV represents the amount of creditable foreign taxes paid by the mutual fund. The information below will assist you in calculating the information necessary to claim either a credit or itemized deduction

To calculate your total foreign source income passed through from the mutual fund multiply your total ordinary dividends (Box 1a of Form 1099-DIV) by the foreign source income factor shown in the Total Foreign Source Income Factor column below for the appropriate fund (s).

<b>Fund</b>	<b>Total Foreign Source Income Factor</b>
Pear Tree Polaris Foreign Value Fund	100.00%
Pear Tree Polaris Foreign Value Small Cap Fund	100.00%
Pear Tree Polaris International Opportunities Fund	97.43%

In order to claim a foreign tax credit shareholders must also satisfy certain holding period requirements with respect to his/her mutual fund shares. If the holding period requirements are not satisfied, the foreign taxes will qualify as itemized deductions. Please consult your tax adviser to determine whether the foreign taxes passed through to you by the fund are either creditable or qualify as an itemized deduction, and whether to make the election to exempt you from the foreign tax credit limitation and the filing requirement of Form 1116.

On December 2, 2019, the Internal Revenue Services issued final regulations (IR-2019-193) which included several foreign tax credit provisions changing as a result of The Tax Cut and Jobs Act (TCJA) passed in December 2017. Please review the instructions to Form 1116 and consult with your tax adviser.

The amount included in Box 3 of Form 1099-DIV represents amounts distributed as return capital, which for tax purposes, are nontaxable. The amount included in Box 3 as non-dividend distributions should reduce the cost basis of your shares. Once you have received return of capital distributions equivalent to your cost basis, any additional return of capital distributions received will be taxable to you as capital gain even though they will be reported as nontaxable distributions on Form 1099-DIV.
